

# Assembly Instructions:

1. Take off cotter pin and washers from axle and put in a safe place.
2. Slide petal wheel and washers onto axle. The washers go on either side of the petal wheel.
3. Slide the flower on the end of the axle.
4. Line up flower tube hole with axle hole and slide cotter pin completely through hole. Bend cotter pin to secure flower.  
Tip: It is sometimes easier to open the cotter pin first and slip one half of the pin in the hole.
5. Join support poles and install spinner into ground by using ground stake.
