

Hot Air Balloon Spinner

Hot Air Balloon Assembly Instructions:

- Insert bottom end of Shaping Rod (the end with more rod sticking out of sleeve of Balloon Section) into one of the pre-drilled holes on top of Basket. Insert top end of same Shaping Rod into one of the pre-drilled holes on Upper Hub.
- Insert bottom end of second Shaping Rod into next hole on top of Basket going clockwise. Insert top of second Shaping Rod into next hole on Upper Hub, making sure that second Balloon Section is underneath the first on outside.
- Repeat these steps going clockwise around top of Basket to complete Hot Air Balloon.
