

Step 1

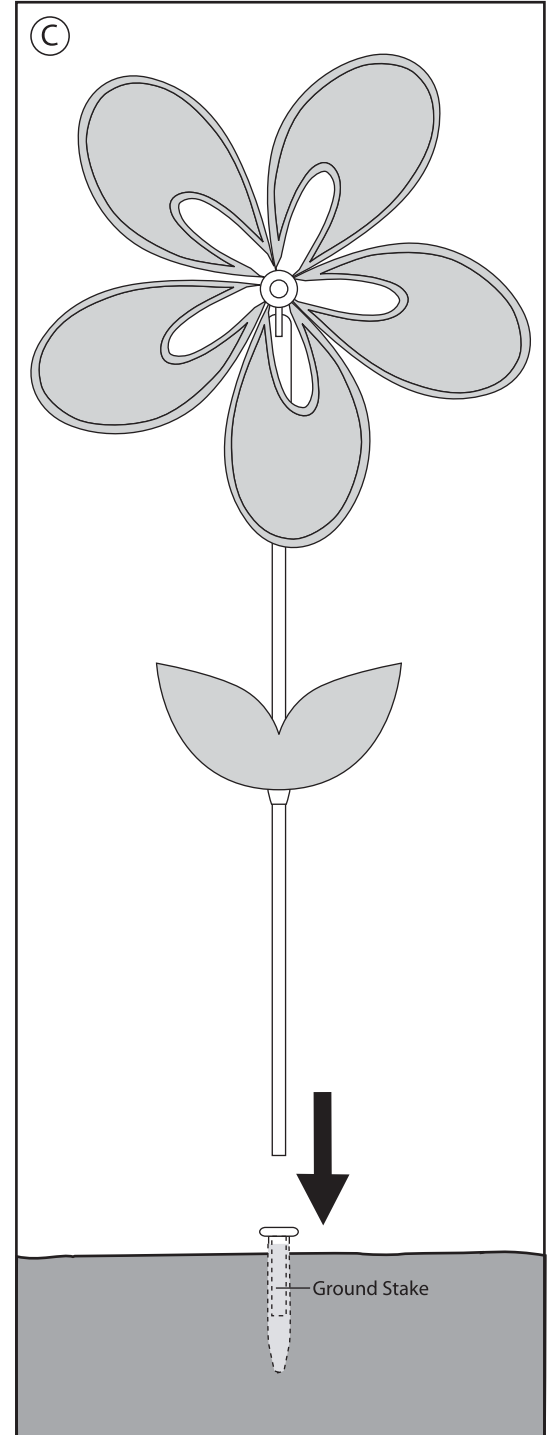

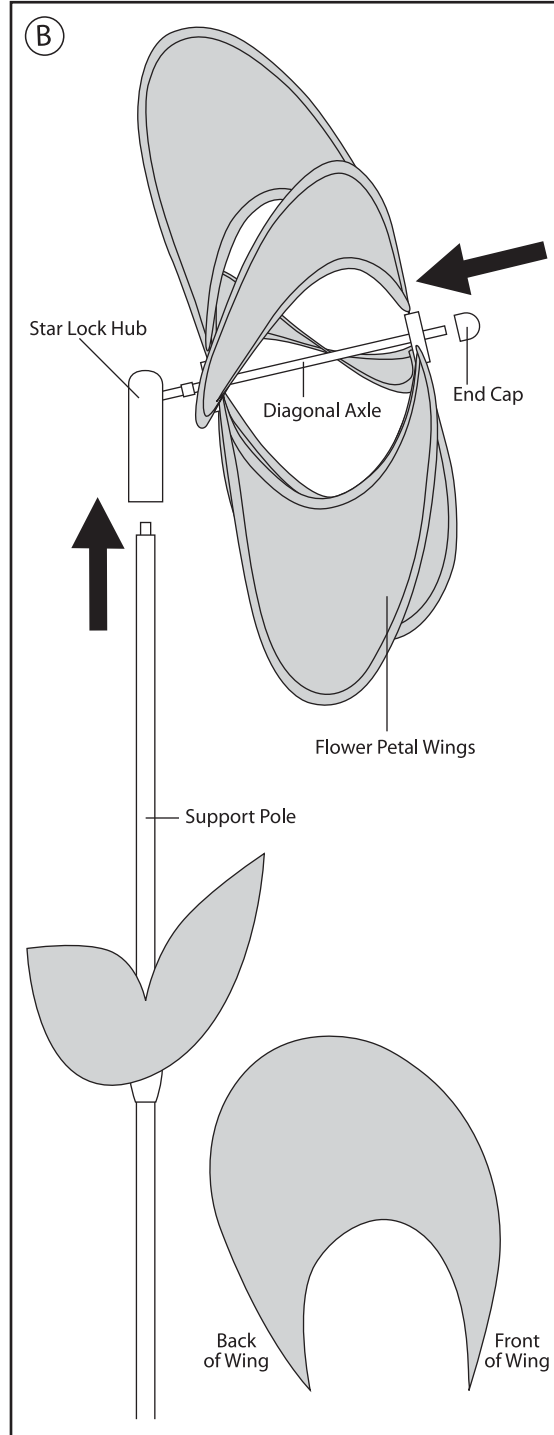

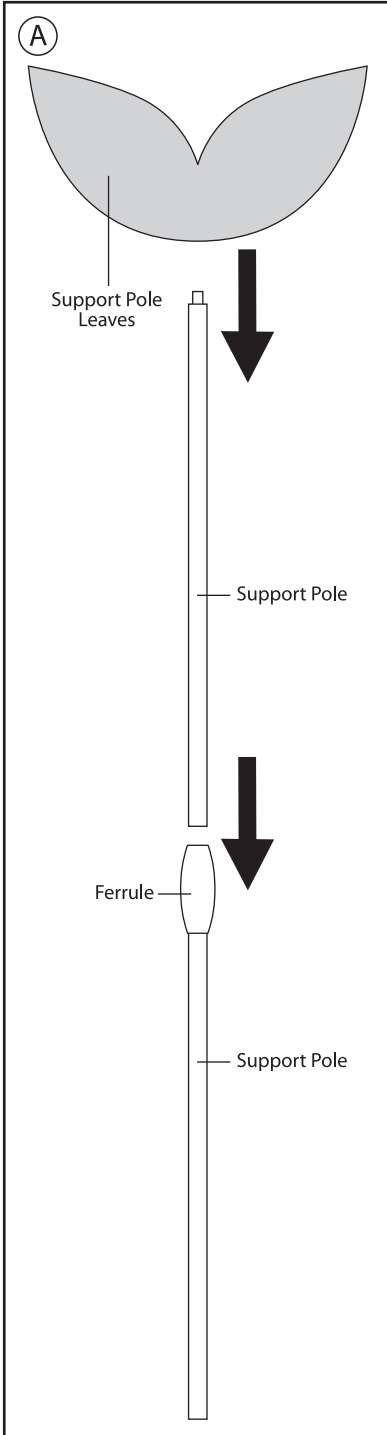

Slide the wide end of the Unferruled Support Pole into the Support Pole Ferrule. Slide Support Pole leaves down over Ferrule until they fit snugly. (Diagram A)

Step 2

Slide the narrow end of Unferruled Support Pole into Star Lock Hub. Push the Support Pole until it locks into place and can not be removed. Untie the Flower Petals and slide the hub onto the diagonal axle. Secure the Flower Petals in place with the end cap. (Diagram B). **PLEASE NOTE: The flatter edge of the wings should slide onto the axle first. The more sloped edge of the wing should go towards the front.**

Step 3

Drive Ground Stake into ground. Slide assembled Whirly Wing Flower Spinner into Ground Stake. (Diagram C)

PLEASE NOTE: It is recommended that you take your Whirly Wing Spinner inside during storms and harsh weather to preserve its durability.
